Testimonial

Dated: January 10, 2007

To Whom It May Concern

This is to certify that Dr. Satish Bhat was posted as Lecturer in Plastic Surgery from 13th Jan 2006 till 11th Jan 2007 at the Tata Department of Plastic Surgery.

During his tenure he has been exposed to various techniques of Plastic Surgery including Burns Care, Reconstructive Surgery in Leprosy, Maxillo-facial Surgery, Hand Surgery and Reconstruction after Cancer besides General and Cosmetic plastic surgery. He set up a microvascular laboratory for improving basic skills and independently carried out free tissue transfers. He has also competently carried out plastic surgery in emergencies and routine work. He has gained useful skills in use of lasers in plastic surgery. As Senior Resident in Plastic Surgery he has taken keen interest in teaching the residents besides performing his duties and carrying out patient care to my satisfaction.

I have found him honest, hardworking, efficient and he has earned appreciation from his superiors, colleagues and staff members. He bears a good moral character.

I have no hesitation to recommend his name for a suitable post anywhere. I wish him all the success and best prospects in his future career.

Dr. Atul Shah,
Honorary Professor of Plastic Surgery & Head of the Department,
Tata Department of Plastic Surgery,
Grant Medical College and Sir J J Group of Hospitals,
